

Not Your Daddy's Dentist-----Dr. Sahf & Team

Our Quality Assurance to You

We are proud to offer you the most current treatment options and materials available to give you a smile that is attractive, comfortable, and long-lasting. To protect your investment, proper home care and regular visits are a natural follow-up to in-office care. We are pleased to offer you a warranty on your dental treatment. To maintain this warranty, please be sure to read the warranty conditions.

Composite (tooth-colored) Fillings

When a composite restoration is done, we will replace or repair it in the event of failure up to 3 years at no cost to you. If the tooth breaks and more extensive treatment is required than another composite, the original fee will be applied to the future treatment.

Crowns, Bridges, Onlays, Inlays, and Porcelain Veneers

We will warranty these most comprehensive procedures up to 3 years. If necessary, we will replace or repair them at no charge **if they break**. This does not include accidents that could also break normal, healthy teeth. This warranty is null and void if the whole tooth breaks off.

Root Canals

Root canal therapy is about 96 percent successful; however, root canal therapy does occasionally fail. If this should occur within 3 years, we will re-treat the root canal. If the tooth is lost due to improper root canal treatment we will apply the original fee paid as a credit toward a replacement tooth or prosthesis.

Dentures and Partial Dentures

We will warranty dentures and partials for a period up to 3 years, and the use of our denture cleaner is required. If a tooth on a denture or partial chips or breaks during the first 3 years, we will repair it at no charge. This does not cover accidents such as dropping your denture. Note: Relines may be recommended every year, in order to preserve your denture and oral health. Relines are not covered under the warranty. Repairs to dentures or partials not originally made in our office are not covered under this warranty.

Summary

We are confident of the durability of the materials and procedures prescribed for you. We warranty all comprehensive treatment for 3 years from the date of placement. We will repair or replace these, at no charge to you, for the full 3 years due to breakage due to normal use. If more extensive treatment is required, the original fee will be applied to the future treatment. Our assurance to you does not include accidents or trauma which could cause damage to the teeth or dental prosthesis. **Failure to have your regular re-care visits, at the prescribed intervals with our office, voids all warranties.** Help us to help you maintain your teeth for a lifetime.

Guarantee

We guarantee that we will use the best care, skill, and judgment to provide you with the strongest, most long-lasting restoration. Our goal is to save you time, money and to help you maintain healthy teeth and gums -- and a beautiful smile.

What you need to do to maintain this warranty:

1. Be seen the prescribed number of times each year, **in our office**, for your regular professional checkups, which include some or all of the following: Cleaning, exam, X-rays, and fluoride treatment.
2. Follow through with the recommended treatment.
3. Excellent home care which includes but is not limited to brushing, flossing, and use of prescribed home care products
4. Using our professional home care products, if prescribed for you.
5. Using our professional denture cleaner, if you have a partial or denture.

What we provide to assure long-term success:

1. Regular professional cleanings
2. Regular professional exams
3. Regular X-rays
4. Fluoride treatments
5. Professional home care products
6. Most up-to-date dental techniques
7. Most up-to-date dental materials

Things that void the warranty:

1. Not keeping your prescribed cleaning appointments at the prescribed intervals
2. Not following through with recommended treatment
3. Not using the recommended home care products
4. Dropping prosthesis (denture)
5. Not using our professional denture cleaner
6. Recurrent decay
7. Accidents or trauma that could also break normal, healthy teeth
8. Having another office perform treatment that was covered under the warranty
